

Clinical Neuropsychiatry Fellowship Program (2021)

The Department of Psychiatry, University of British Columbia (UBC) in partnership with the Provincial Health Services Authority is offering a **2-year Clinical Fellowship in Neuropsychiatry** commencing **July 1, 2021**. This fellowship is accredited through the United Council for Neurologic Specialties (UCNS), an affiliate of the American Neurological Association. Depending on the source of funding, there may be a return-of-service component.

The first year of the fellowship consists of clinical rotations in neuropsychiatry, neurology, neuroanatomy, neurophysiology and neuroradiology at UBC, Vancouver General, St Paul's Hospitals, and GF Strong Rehabilitation Centre. *The whole or portions of the first year may be arranged during the PGY-5 residency year.*

The second year will be spent primarily at UBC Hospital focusing on clinical inpatient and outpatient exposure to neuropsychiatric disorders with outreach clinics in the Fraser Region. An adjunctive seminar series and weekly neuropsychiatry rounds are provided to enhance the academic experience. Research is optional. It is expected that the successful fellow writes the UCNS diplomate examination at the completion of training.

The salary during the fellowship is \$90,000 annually prior to benefits deductions, supplemented by other remuneration from clinical service.

Applicants must hold Royal College of Physicians and Surgeons of Canada certification in psychiatry and be eligible for an unrestricted license to practice medicine in British Columbia. UBC hires on the basis of merit and is strongly committed to equity and diversity within its community. We especially welcome applications from visible minority group members, women, Aboriginal persons, persons with disabilities, persons of minority sexual orientations and gender identities, and others with the skills and knowledge to productively engage with diverse communities. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

Interested applicants should forward their CVs to:

Dr. Trevor A. Hurwitz
